ABOUT ME

I WOULD DESCRIBE MYSELF AS

the Classic modern day active lifestyle

A bold statement which could simply mean I am over 50 and clinging to my ever diminishing youth. Or, it could mean that I am on to something – the nirvana of life.

HAPPEN ON LIFE OR LIFE WILL HAPPEN ON YOU

My day begins at 4:45 am with a 1 hour of bike, run or swim. I follow this up with a 45 min coffee, to jot out all the stuff that filters through as important. I make it a rule not to check social media or emails at this time, as I need that fresh quiet creative space to enhance me. Then it's home for a shower, a bowl of Oat-bran and I am ready for work at 8:30. I shut my work day down to transition in sync with the sunset. It's a great space, that keeps me vibrant and vital.

MARRIED WITH CHILDREN

Claire and I are both from Waikanae NZ, and married way back in 1989. We have two children

- Georgia (1994) lives in Vancouver: School TKJA NZ – College: St Hilda's Gold Coast – University: QIT
- Zach (1990) Lives in London: School TKJA – College: TSS Gold Coast – University: Bond

Claire and I live in Main Beach, Gold Coast, Queensland Australia

CANCER MENTOR

Personal
JANUARY 2020

The very least I can do is to help those who are undergoing the biggest challenge within life. I am always available to terminally ill patients across the globe.

November 2016, I was diagnosed with Cholangiocarcinoma. (CCA). Average survival period 6.7 months - no early detection and no cure. July 2017 I became Metastatic across the Liver and Lungs, with weeks if not days to live.

Surgeries - 25 hrs removed

- Gallbladder,
- 80% Stomach,
- 100% Duodenum,
- 95% Bile Duct,
- 33% Pancreas, and
- 100% of my main Hepatic artery
- 2 Lymph Nodes
- 23 months highly intensive & debilitating chemotherapy and immunotherapy treatments

I have knowingly faced death on several occasions coming down to seconds on one occasion and then days on another.

Keynote Trial 158

I am a Patient participant on the international Keynote trial 158 until 2023.

I share my experiences, knowledge & wisdom's with terminally ill patients around the globe, in the hope that I can pull them out from the swamps of death, back onto solid ground -

These men saved me from certain death -

Dr Tom Snow - Interventional Radiologist - GCUH

Dr Matthew Burge - Oncologist - Icon - Head of my trial & Merck - California - Keytruda - Principles Keynote trial 158

CHRISTIAN CULLEN AND I MEET

DECEMBER 2017

I MEET CHRISTIAN CULLEN

New Zealand's finest and most disruptive Rugby player who changed how the game was played and dismantled the stats. Christian did what most thought impossible at that time. For some reason as I drifted in and out of consciousness over many months, I could see Christian weaving his magic - it ran like a movie in my head. In my view Christian had talents beyond his physical attributes, as he continually displayed exceptional skills in the art of "Acceptance, Willingness and Vision around his own Story." This shone a light on what is possible - it rubbed off on me, and I learned to Walk on Water, I became part of the cancer cure and dismantled the cancer stats forever - Thanks Christian
